

COLLEGE OF VETERINARY MEDICINE

Clinical Track Faculty Position in Veterinary Anatomic Pathology

The Department of Veterinary Biosciences (VBS), College of Veterinary Medicine (CVM) at The Ohio State University (OSU), is seeking outstanding candidates for a full-time clinical track faculty position in Veterinary Anatomic Pathology at the rank of Assistant or Associate Professor.

Position Overview

Responsibilities:

1. Diagnostic service: The faculty member will participate in the autopsy and surgical biopsy services of the college's Applied Pathology service. Service duties include: Serving as attending pathologist for standard post-mortem examinations as well as forensic and legal post-mortems; serving as attending pathologist for the biopsy service; and supervising anatomic pathology residents and rotating veterinary students.
2. Teaching: The faculty member will participate in clinical training of veterinary students as part of the senior student rotation in Applied Pathology, and diagnostic training and mentoring of pathology residents in the Combined Anatomic Pathology Residency/PhD Graduate Training Program. Didactic teaching responsibilities include participation in the professional veterinary medical curriculum and in the courses provided to pathology residents in the Combined Residency/PhD Program.
3. Research and scholarly activity: The faculty member will contribute to collaborative research and scholarly activity synergistic with the College's research, teaching, and clinical service missions.

Candidate Qualifications/Attributes

Applicants must have a DVM (or equivalent) from an AVMA-accredited or equivalent institution and be board-certified or board-eligible in anatomic pathology by the American College of Veterinary Pathologists or the European College of Veterinary Pathology. A PhD and/or demonstrated record of scholarship in pathology specialty are highly desirable. An overarching component of this position is training and mentoring students in a combined residency/PhD program. The applicant should relate their perspectives on and provide experience in graduate student mentorship. The successful applicant must possess exceptional interpersonal and communication skills, prioritize collegiality, and demonstrate effectiveness in teamwork.

How to Apply

Applications should be submitted to [Workday via this link](#) and include a curriculum vitae, a cover letter, a document describing the teaching, research and diversity philosophy, and the names (with complete contact information) of at least three individuals from whom letters of reference may be solicited. Review of applications will begin the first week of December 2022 and continue until the position is filled.

Additional information regarding this search or the position can be obtained by contacting the Chair or co-Chair of the search committee, Dr. Estelle Cormet-Boyaka (boyaka.2@osu.edu) or Dr. Sue Knoblaugh (knoblaugh.1@osu.edu).

About the Department of Veterinary Bioscience:

The Department comprises 25 faculty, including 11 Diplomates of the American College of Veterinary Pathologists (7 certified in anatomic pathology and 4 certified in clinical pathology), and combines the disciplines of oncology, immunology, microbiology, physiology, and anatomy. The College is a member of the most comprehensive Health Sciences Center in America, which includes on a single campus: the Colleges of Veterinary Medicine, Medicine, Pharmacy, Public Health, Dentistry, Optometry, Nursing, and Allied Health Sciences.

About the College of Veterinary Medicine:
