

Colorado State University

COLLEGE OF VETERINARY MEDICINE
AND BIOMEDICAL SCIENCES

Tenure Track Clinical Pathologist

CSU is pleased to announce a tenure-track position in Clinical Pathology at Colorado State University with potential to hire in at the rank of assistant, associate or full commensurate with experience. Responsibilities will include support of the diagnostic service at the CSU clinical pathology lab. The clinical pathology service offers a large, varied caseload, interaction with 7 board-certified clinical pathologists, 5 clinical pathology/graduate degree trainees, collaboration with an active Clinical Hematopathology service and opportunities to help expand/develop coagulation testing and immunocytochemistry services. Teaching will include a mixture of lecture, discussion and lab-based teaching of DVM students College of Veterinary Medicine and Biomedical Sciences and resident training. Research efforts and scholarly activity will be tailored to individual interests and would be expected to align with clinical pathology focus and compliment current research efforts in the department; there is the potential for an expanded research commitment for well-qualified candidates.

To Apply:

For full position announcement and to apply <https://jobs.colostate.edu/postings/108335>. Applications should be received by 11:59pm MT on August 14, 2022, to receive full consideration. CSU is an EO/EA/AA employer and conducts background checks on all final candidates.

Closing Date August 14, 2022
