

CONTRACT PATHOLOGIST

THIS POSITION WILL BE BASED AT CAHFS TULARE BRANCH LAB (TULARE, CA)

UC DAVIS
UNIVERSITY OF CALIFORNIA

Work independently to provide timely diagnostic pathology services, including necropsy and histopathology, as required for mammalian and avian specimens with emphasis on disease diagnosis. Incorporate interpretation of ancillary tests in client reports. Provide consultation, advice and guidance to veterinarians and producers regarding equine, livestock, avian and wildlife disease diagnosis, control and prevention. This position will be based at Tulare branch CAHFS and will provide diagnostic service at the branch.

MINIMUM QUALIFICATIONS

For full consideration, applicants are encouraged to upload license, certification and/or educational degree if required of the position.

- Current California state veterinary license or California Veterinary Medical Board university license is required. If not licensed, the license should be obtained within 3 months of hire. CAHFS will pay the application cost for a university veterinary license and Board certification or eligibility for board certification by the American College of Veterinary Pathologists (ACVP) or European College of Veterinary Pathologists (ECVP) required. If not ACVP certified, board certification will be required within three years of the date of initial hire.
- DVM or equivalent from an AVMA-accredited or equivalent institution.
- Experience in Veterinary diagnostic pathology of poultry, livestock, equines and porcine including experience in applying existing theory and research findings to define unusual and complex problems, handle sensitive inquiries and confidentiality with animal owners and veterinarians.
- Skill operating microscopes, necropsy equipment (e.g., mechanical hoist, bandsaw, Stryker saw, surgical & necropsy instruments), computer, laboratory equipment (e.g., biosafety cabinet, electronic scales) and skills in computer data entry and related software applications.
- Ability to respond appropriately in emergency duties and outbreak situations, e.g. suspected foreign animal diseases or diseases that impact public health.
- Knowledge and skills to dispose of hazardous and contaminated materials in a safe manner and in accordance with campus and EH&S policies and procedures.
- Interpersonal skills to interact with a wide variety of individuals including co-workers, clients of CAHFS, and other University units, outside and government agencies including excellent communication skills including oral and written to share information about diagnostic cases, results to co-workers, clients of CAHFS, and other University units, outside and government agencies

PREFERRED QUALIFICATIONS

- Familiarity with all aspects of the quality system documentation and implementing, complying with them in daily work. This includes the Quality Manual, System wide Documents and local policies and procedures.
- Ability to travel, i.e. to CAHFS branch laboratories as needed.
